

Local Knowledge INTERNATIONAL EXPERTISE

RPS is an international consultancy providing world-class local solutions in infrastructure, urban growth, energy, mining and natural resource management.

RPS began its operations in the UK in 1970. Listed on the London Stock Exchange, we now employ more than **5000 people** in the UK, Ireland, the Netherlands, the US, Canada, Brazil, Africa, the Middle East, Australia and Asia, and undertake projects in many other parts of the world.

RPS **began its operations in Australia in 2003** and since that time has built its business using a mix of organic growth and acquisitions of leading consultancies in the region.

With local knowledge and national expertise supported by international experience, we have the capability to **deliver first-rate services** where and when they are needed.

In the Australia and Asia Pacific region, our **1000 professional and technical staff** work from offices in **27 locations**, including metropolitan and regional centres in high growth areas.

The RPS Reconciliation Action Plan outlines the practical actions that we undertake to build **strong relationships** and enhance respect between Aboriginal and Torres Strait Islander peoples and other Australians.

We are known for:

- Being outcome focused problem solvers
- Our pragmatism and commerciality
- Our understanding of the bigger picture drivers our clients are responding to
- Our local knowledge and relationships
- Our ability to provide solutions to multiple problems and integrated perspectives
- Our flexibility
- Our energy
- Our quality delivery
- Our capacity, responsiveness and reliability.

Our vision is to have an injury and illness free workplace. To achieve this vision we are committed to **continually improving our processes** and operations to improve health and safety outcomes for our clients and our business.

Urban Growth

RPS provides urban growth clients with the most comprehensive suite of professional and technical services in Australia. We bring local relationships and knowledge together with exceptional leaders in their field of practice to challenge conventional approaches, solve multiple problems and help our clients achieve their commercial outcomes.

Infrastructure

RPS is involved in some of the Australia and Asia Pacific region's most important and challenging infrastructure projects. We provide strategic advice and expert technical services to achieve the best outcomes for projects in transport, utilities, defence infrastructure and information and telecommunications.

Natural Resources

RPS combines scientific excellence and superior technical skills and advice to support the management of Australia's precious natural resources. As a multidisciplinary firm, we not only have a broad conceptual understanding, but can also the deal with the many different interactions and ensure environmental issues are not dealt with in isolation.

Energy

RPS helps clients develop their energy resources across the complete asset lifecycle. We combine our technical and commercial skills with an extensive knowledge of environmental and safety issues. Working on a broad range of projects in oil and gas and renewables, we provide independent and flexible support to help clients achieve their technical and commercial goals.

Mining

Committed to supporting world-class, environmentally responsible development, RPS has a reputation for providing a comprehensive suite of technical expertise and advice to the mining and resources sector in Australia and internationally.
